Financial Maths – Year 8

Reading and Interpreting Price Tags

Practise reading price tags with discounts, calculating sale prices, and determining savings from percentage discounts.

Name: _____ **Date:** _____

1. Look at each price tag below.
Complete the table for each item.

	A. Hoodie	B. Sneakers	C. Back Pack	D. Headphones
				
Original price				
Discount (%)				
Sale price				
Savings ($)				

	E. Jeans	F. Watch	G. Water Bottle	H. Soccer Ball
				
Original price				
Discount (%)				
Sale price				
Savings ($)				

2. Real-life situations – read each scenario and answer the questions.

a. A jacket is $110.00.
It has 25% off.

What is the sale price?

$ _____

How much will you save?

$ _____

b. A tablet is $320.00.
It has 30% off.

What is the sale price?

$ _____

How much will you save?

$ _____

c. A bike helmet is $70.00.
It has 20% off.

What is the sale price?

$ _____

How much will you save?

$ _____

d. A pair of shoes is $140.00.
It has 40% off.

What is the sale price?

$ _____

How much will you save?

$ _____

3. Challenge!

An item is reduced by 25% and then reduced by a further 20%.
If the original price is $160.00, what is the final sale price? Show your working.
