

# Estimating and Checking Addition Answers

Name: \_\_\_\_\_

Date: \_\_\_\_\_

---

## Instructions:

For each problem, first **estimate** the answer by rounding the numbers. Then calculate the **actual answer**. Finally, check if your estimate was reasonable.

## Part A: Round to the nearest 10

---

1.  $47 + 82$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

Is your estimate reasonable? \_\_\_\_\_

2.  $134 + 68$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

Is your estimate reasonable? \_\_\_\_\_

3.  $256 + 183$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

Is your estimate reasonable? \_\_\_\_\_

## Part B: Round to the nearest 100

---

4.  $347 + 482$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

Is your estimate reasonable? \_\_\_\_\_

5.  $1,267 + 854$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

Is your estimate reasonable? \_\_\_\_\_

6.  $2,438 + 1,691$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

Is your estimate reasonable? \_\_\_\_\_

## Part C: Challenge - You choose!

---

Decide whether to round to the nearest 10 or 100 for each problem.

7.  $3,456 + 2,178$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_

8.  $567 + 89 + 342$

Estimate: \_\_\_\_\_ + \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

Actual answer: \_\_\_\_\_
